"Love one another and you will be happy.
It is as simple and as difficult as that."
- Michael Leunig

It's like looking in a mirror:

Have you ever known a couple that looked like brother and sister? Probably, since it's a pretty common phenomenon - and as it turns out, not a strange one. According to scientists at the University of Liverpool, our brains favor familiar faces. Given a number of digitally altered images of human faces, 200 study participants preferred faces with the features they found most like their own or their family members.

With summer ending and our busy time of the year coming to an end, we are preparing for fall and winter, and even taking a much needed anniversary trip at the end of September.

On August 11th we DJ'ed the Midnight Madness Beach Party for Gardner Village. We had a BLAST! Thanks to all of you who came and said hi to us! It was great to see you there!

On October 1st we will celebrate our 8-year wedding anniversary! Time sure does fly when you're having fun! It's been fun to attend all of your weddings and see your beginnings. We look forward to celebrating *your* 8-year wedding anniversary with you!

Do you or your company have a Holiday Party coming up? We are now taking bookings for Holiday Parties, so make sure you get us booked as soon as possible before December fills up!

We hope you are all doing well, and look forward to hearing from you!

"Don't Sweat The Small Stuff In Love"

By

Richard Carlson & Kristine Carlson

For people who've been together for years, there's the problem of simply taking each other for granted, and not putting enough energy into keeping the relationship vivid and alive. Don't Sweat the Small Stuff in Love shows couples how to live together with revived passion, how not to let the little everyday irritations get to them, and how to appreciate each other in new and exciting ways.

TRIVIA QUESTION:

How many romantic couples each year take out marriage licenses, then fail to use them?

(email your answers to: trivia@squawkboxsound.com)

LAST ISSUE'S ANSWER:

As reported in a February 1840 edition of The London Times, Queen Victoria's wedding cake was more than 9 feet in circumference.

Wedding Traditions and Their Origins:

The custom of a "First Dance" harkens back to ancient times when the "Bride Kidnapper" would show off his "hunting" skills by parading his "stolen" bride around, in front of his warrior friends, so they could see how well he had done. The feasting would begin immediately after this display. Today, the "First Dance" still traditionally marks the beginning of the reception.
